

# Is Your Workplace Ready for Summer 2024? Join a Sun Safety Study Sponsored by the National Cancer Institute!

## What Is Go Sun Smart?

The National Cancer Institute is sponsoring the development of **Go Sun Smart at Work**, a program to reduce heat and UV over-exposure for people who work outdoors. Twenty companies with at least 50 employees who work outdoors are needed to test the new program.

## Program Components

- 45-minute Modular Training Video for Employees
- Tailored Resource Hub for Managers

## Interested?

For more information or to RSVP, contact Brandon Herbeck, Project Coordinator, at [bherbeck@kleinbuendel.com](mailto:bherbeck@kleinbuendel.com) or Mary Buller, Principal Investigator at [mbuller@kleinbuendel.com](mailto:mbuller@kleinbuendel.com), 303-565-4321.

## Research Study Overview

### Complete Surveys (Feb and Sept 2024)

- 50 employees will complete two online surveys about their sun safe behaviors and receive \$20 upon completion.
- 6 managers will complete two online surveys about sun safety procedures and receive \$25 upon completion.

### Use Program for 6 months (Mar-Aug 2024)

- Group A
  - 10 organizations will receive the **Go Sun Smart at Work** online program to implement.
- Group B
  - 10 organizations will receive a set of print materials.

### Access Free Program

At the end of the research, all organizations will receive the **Go Sun Smart at Work** online program for future use free of charge.
